HOSTED BY PEN VENTURES

FROM ASIA. TO NEW YORK. TO THE WORLD.

AI//UNBOUND NYC.

Connecting the next generation of Asian AI founders with U.S. capital, customers, and markets.

ABOUT PEN VENTURES

PEN Ventures Pioneer, Explorer, Navigator

PEN Ventures aims to discover and support promising early-stage startups to help them explore and pioneer new overseas markets for their continuous growth and diversification of the Korean startup ecosystem.
We hope to be their SHERPA and SUPPORTER.

Bring to light new promising companies
Discover early-stage startups with potential to conduct direct investment with the purpose of growing with the company.

Operate accelerating programs
Operate programs such as DIPS 1000+ and Baby Unicorn 200 to help companies expand globally and attract investment.

Build a Global Collaborative Network
Provide a wide network of the world's leading companies and investors to support the global expansion of companies.

Elaborate collaboration projects
Conduct collaborative projects with domestic and foreign conglomerates to support global entry and new opportunities.

MEET THE STARTUPS

- **ABLY Corporation** — Fashion, beauty, and lifestyle commerce / AI-driven consumer technology.
- **BestTurn** — AI workforce platform for airport ground operations.
- **LIBECO** — Liquid-hydrogen fuel systems for commercial vehicles and data-center backup power.
- **OneCheck** — UWB-powered spatial intelligence for understanding offline human behavior.
- **SemiAI** — Agentic AI for semiconductor yield optimization.
- **VanaM** — Specialty foundry for quantum photonics and custom device fabrication.
- **BANF** — Smart tire sensing for vehicle safety, fleets, and connected vehicles.
- **Colosseum Corporation** — AI-powered supply-chain technology and logistics operations.
- **MADUP** — Digital marketing and AI-driven advertising technology.
- **P2ACH AI** — Edge vision AI for retail analytics and retail media.
- **SM Planet** — Accessibility software designed for visually impaired and digitally underserved users.
- **Xpanner** — Industrial plasma coating and customized surface-treatment technology.
- **Batterfly** — AI-powered EV battery diagnostics and lifecycle management.
- **Innotion Tech** — Physical AI and automation for construction equipment.
- **Metacrowd** — On-device AI for detecting voice scams and deepfake audio.
- **ProxiHealthcare** — Bioelectric oral-care technology with applications across health and consumer devices.
- **SolverX** — Physics AI that predicts engineering simulation results directly from CAD.
- **Flydove** — Transparent alternative to the influencer marketing agency.
