Flydove

Hundreds of creator posts a month, without hiring anyone

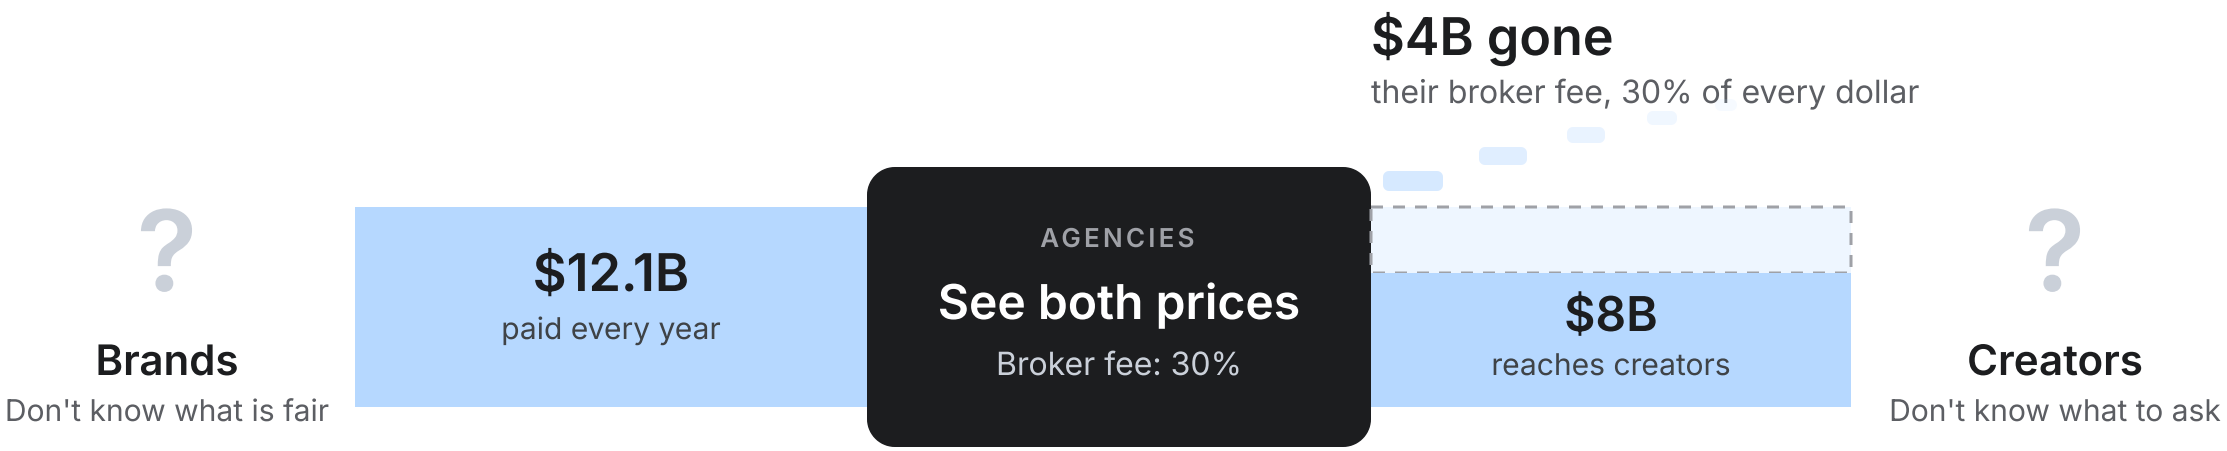

The transparent alternative to the influencer marketing agency.

By Bridgeleaf

THE PROBLEM

Creator marketing is fundamentally broken.

WHY THIS IS NEXT

This happened three times before.

A price was a secret. Someone published it. That company got very big.

Flight prices were secret

Expedia

$33B today

Only travel agencies knew them.

House prices were secret

Zillow

$7.6B today

Only realtors knew them.

Salaries were secret

Glassdoor

sold for $1.2B

Only recruiters knew them.

Creator prices are still secret

Flydove

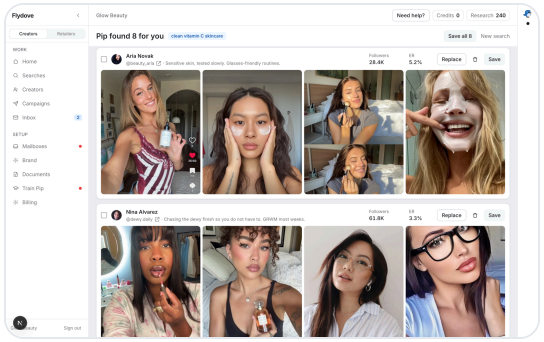

we are publishing them

Only agencies know them.

OUR PRODUCT

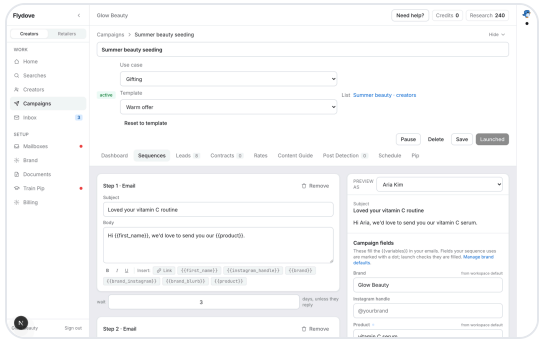

Flydove automates end to end influencer marketing at scale.

You set the goal. The AI does the rest.

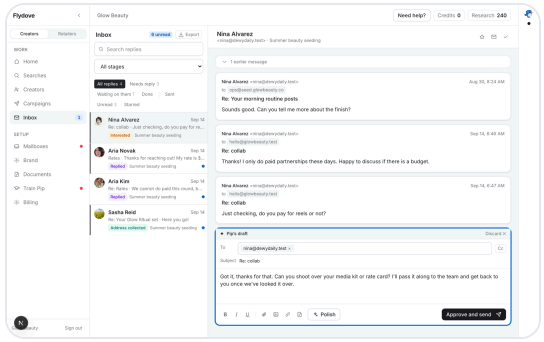

Find them

Searches the open web, not an old list

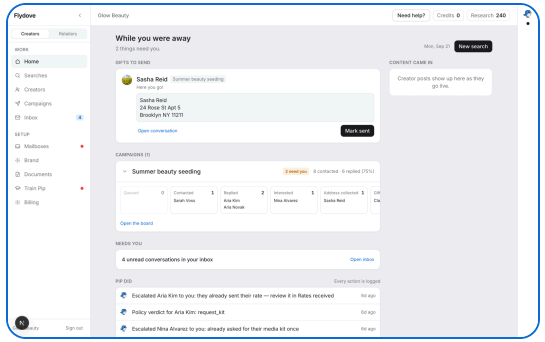

Email them

30,000 emails a month, sent by us

Agree a price

Answers every reply, in your words

Chase the post

Ships the product, waits for nothing

Every price is agreed inside our software. So we see what every creator charges.

WHAT YOU GET

Three things you get.

ONE

1/3

the price of an agency

No cut of the deal. You pay for the software, not for the middleman.

TWO

0 hrs

babysitting influencers

Nobody to chase and nobody to wait for. The agent follows up until the video is live.

THREE

B2C + B2B

in one place

Creators, med spas, hair salons and stores. One team instead of two.

TRACTION

One month after launch, brands are already paying.

Revenue since launch

Revenue in month one

$31K

Creators in our system

60K

Spent on marketing

$0

In partnership with Stanford | Stanford Center for Innovation and Design Research

WHAT WE ARE LOOKING FOR

Raising $1M pre-seed.

To reach $1M ARR in 6 months.

THE VISION

Everyone talks about TikTok Shop and affiliate links. Nobody fixes the real problem: all the prices are locked inside agencies. We are taking them out.
