peach ai

Vision AI · RETAIL AX

With a full-stack Edge Vision AI Turning offline spaces into measurable media

P2ACH AI

Transform Retail with AI (RAX)

Company Overview

Key Company Information

Company Name	P2ACH AI Inc.
Founded	July 2021
CEO	Dongyul Lee
Website	https://p2ach.ai/
Capital	Approx. KRW 64M (as of Q1 2025)
Employees	31 (as of Apr 2026)
HQ Location	5F & 6F, Kangin Bldg., 28 Seolleung-ro 92-gil,
Branch Office	5F Igarashi Bldg., 3-16 Kanda-Nishikicho, Chiyoda-ku, Tokyo

GDPR COMPLIANT

LRQA CERTIFIED ISO/IEC 27001 UKAS MANAGEMENT SYSTEMS 0001

Key Achievements

Investment Validation

Pre-A KRW 3.6B

Strategic investors incl. GS Retail & SOLUM

Business Validation

1,000+ units contracted

Scalable installation & operations base secured

Growth Validation

2025 revenue 6x+

Rapid revenue growth vs. 2024; major contracts signed in H1 2026

Market Validation

Hotel & retail expansion

Contracts with leading hotels & retailers; expanding retail PoCs

Key Investors & Customers

GS 리테일 · SOLUM · FamilyMart · NEC NECネッツエスアイ · NAUTILUS INVESTMENT · bluepoint · aws · TRIAL SEIYU · 인라이트벤처스㈜ Enlight Ventures Co.,Ltd. · REINVESTMENT · 南海電設株式会社 · Hoshino Resorts

P2ACH AI TEAM

We build AI dedicated to offline media and retail

Two deep-learning PhDs and engineers with 10+ years of Vision AI at Hyundai, Naver, Kakao & Upstage — plus a strong Japan sales force

A team built to solve the long-standing challenge of viewing recognition in retail media and offline ad analytics

Problem

A fast-growing retail media market hits its limit: no precise measurement

DOOH and retail media budgets grow double digits every year, but matching online-level growth requires performance measurement

$200B+

Within the global digital ad market,
DOOH & retail media share is surging

<5%

Of all offline advertising,
the share with verifiable ROI

$ $0

Value captured online,
has yet to be recovered offline

⚠ No measurement → budget, pricing, ops & data growth all capped

Four value leaks from missing measurement

Advertisers

Cannot prove ROI → budget cap

Retailers

Limited ad-inventory pricing

Store Operations

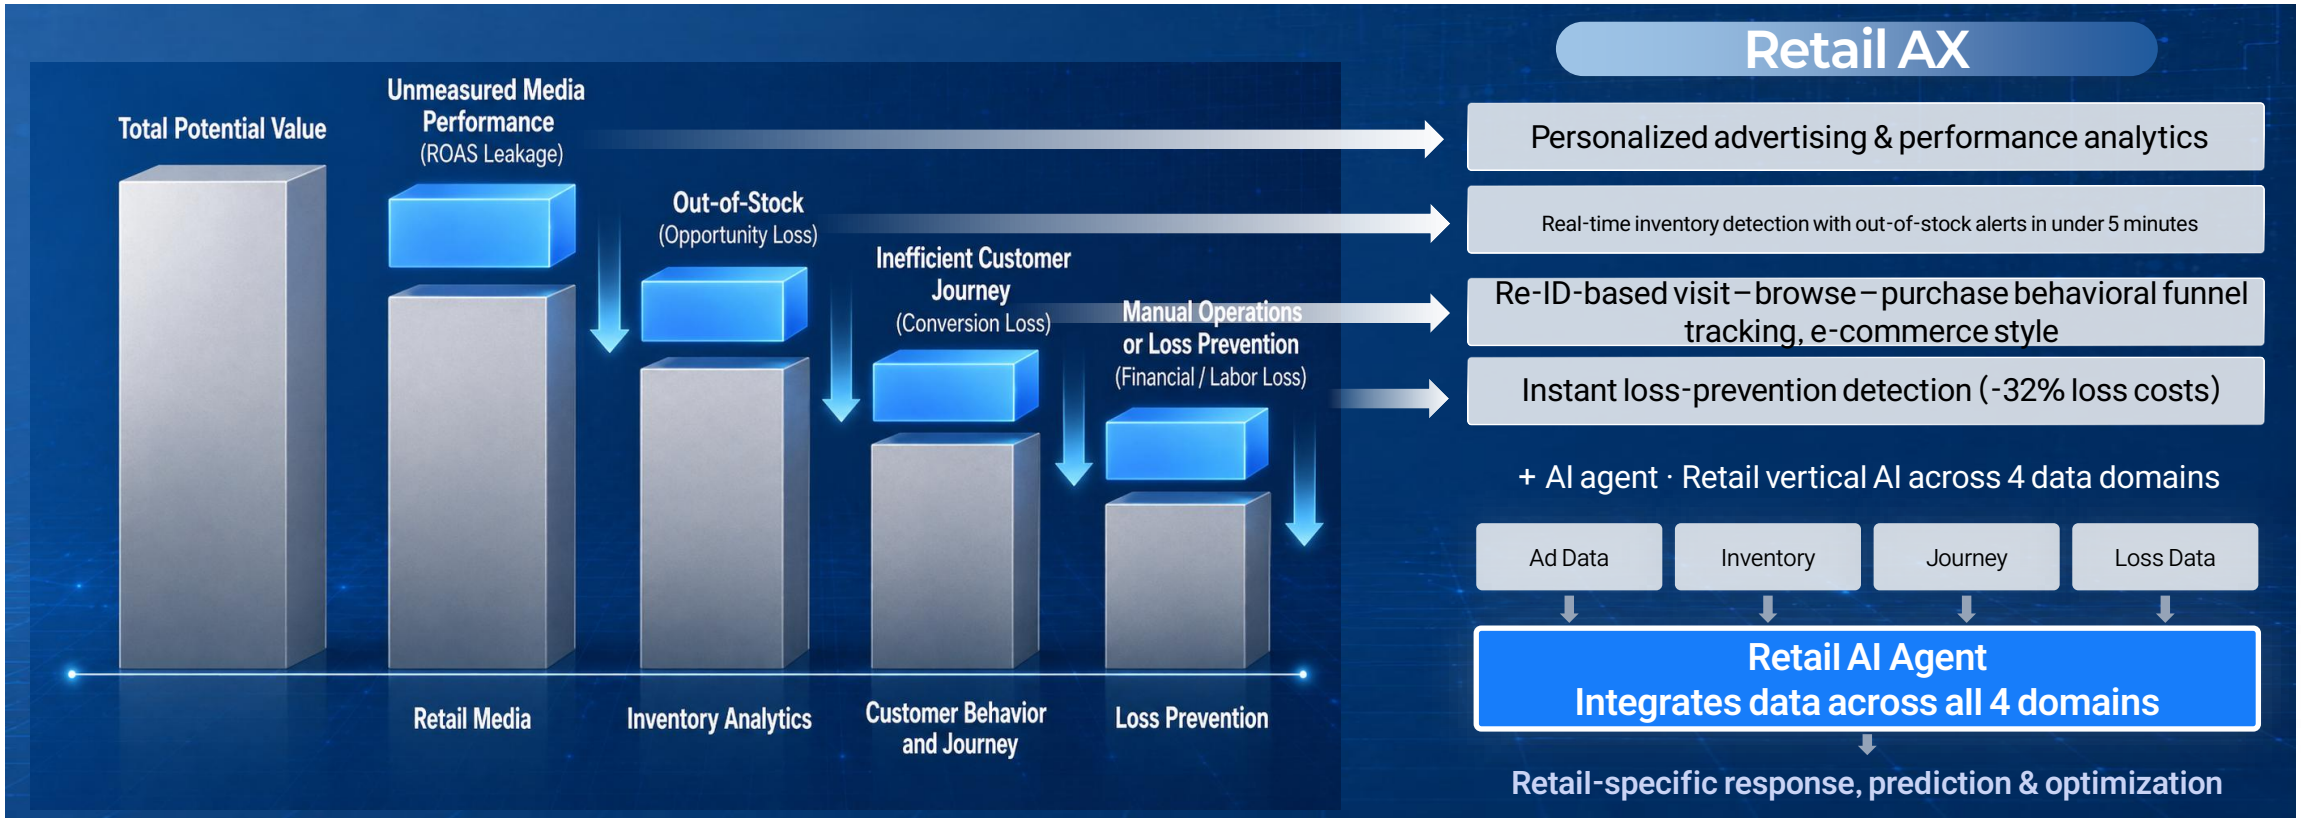

No linkage of dwell, traffic flow & purchase

Data Assets

No offline 1st-party data accumulated

MARKET PROBLEM

Expanding to Retail AX: the cascading value leaks caused by missing data

Fragmented IT systems and disconnected data are not just a marketing problem — they are critical pain points

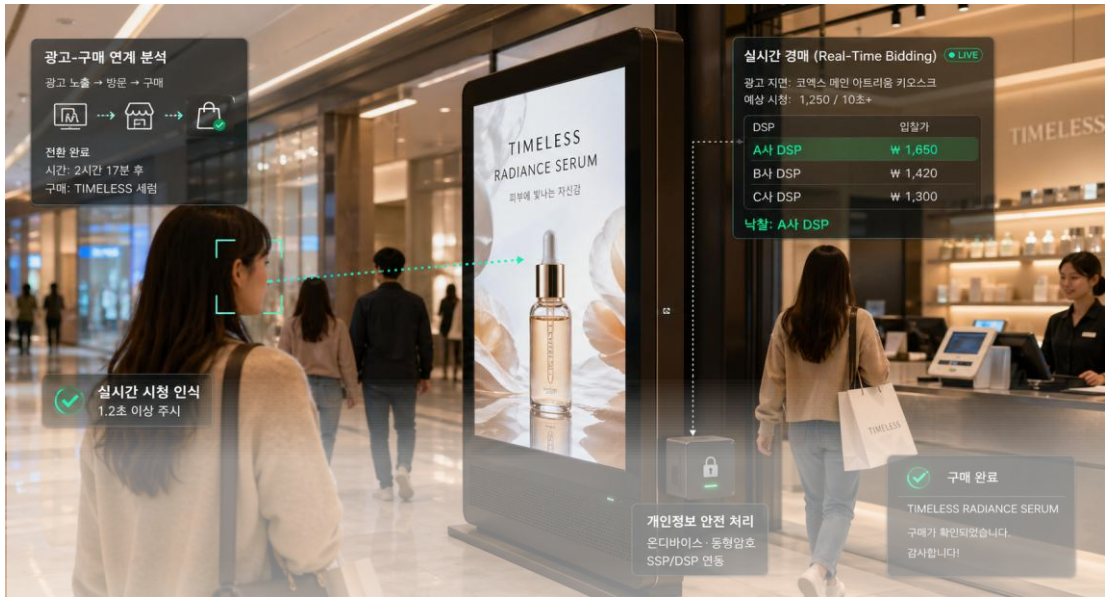

THE CATALYST

RAX-Z — an Edge-AI-based retail media solution

We bring what Google Analytics did for online advertising fully into physical spaces.

RAX(Retail AI Transformation)-Z

Retail Media Analytics + Targeting + SSP

Real-time viewing recognition

Under 1 second

Privacy-safe processing

On-device · homomorphic encryption

Ad-to-purchase linkage analysis

Re-ID-based

Real-time bidding

SSP/DSP integration

01

Engagement

Quantifies gaze, dwell time & interest

02

Targeting

Profile-based targeted ad delivery

03

Monetization

Triple revenue (HW + SaaS + Ads)

RAX (Retail AX) Key Features (Product): Retail Media

Edge-AI-based Retail Media DOOH solution (commercialized)

Bringing what Google Analytics did for online ads into retail advertising

01 Proprietary gaze recognition from autonomous-driving tech

02 Low-complexity homomorphic encryption: ~1% loss, 1000× faster
(from minutes/tens of seconds → under 10 ms)

03 Multi-camera Re-identification with no spatial constraints

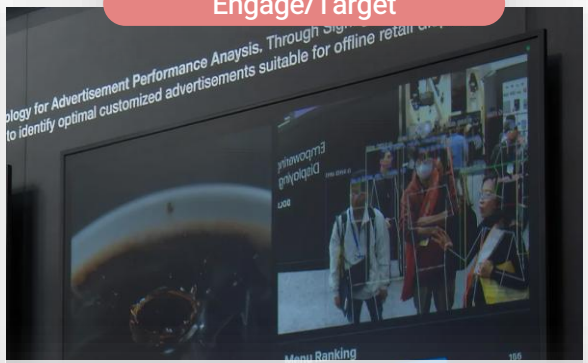

04 Only global Android-OS build: OTA, scale-stability & SLA

05 In-house certified cameras / AI BOX: cost-competitive & reliable
(superior cost competitiveness vs. competitors)

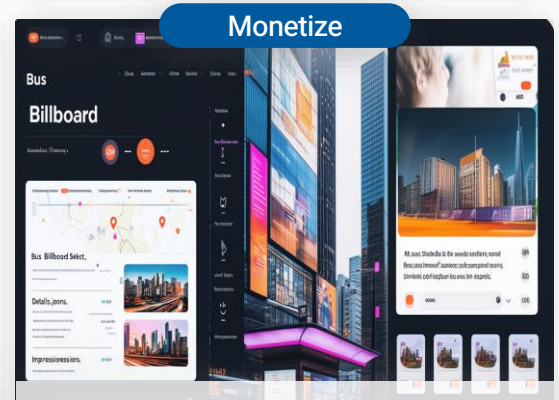

Engage/Target

Real-time analysis with Edge-AI
Privacy-by-design & GDPR compliant
On-device processing using homomorphic encryption

Monetize

Revenue through real-time bidding
AI-based targeting boosts conversion & ROI
Triple revenue model (HW + SW + Ads)

+

Our proprietary Edge HW/SW determines Engage·Target / Monetize quality

Product

The RAX platform — 5 modules running on a single infrastructure

Full AX transformation of offline retail

All 5 modules share one Edge HW and one data pipeline

EDGE AI HW + DATA PIPELINE

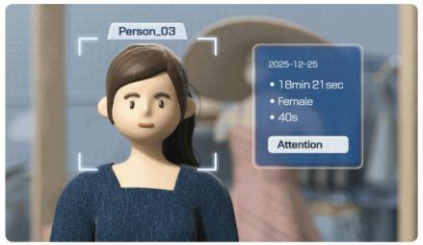

6 TOPS NPU · 10 FPS · Homomorphic

A comprehensive offline retail AX solution

RETAIL MEDIA WITH MONETIZATION

RAX-Z

Maximize retail media revenue

OFFLINE CUSTOMER BEHAVIOR RECOGNITION

RAX-Flow

Within the retail space, analyze customer purchase behavior & drop-off

SKU MANAGEMENT EFFICIENCY

RAX-E

By linking ESL with inventory status, streamline store operations

OFFLINE RISK/LOSS MINIMIZATION

RAX-LP

Minimize store losses with VLM-based Loss Prevention

AUTONOMOUS WORKFLOW SUPPORT

RAX-A

With a retail-specialized agent, support automated workflows and more

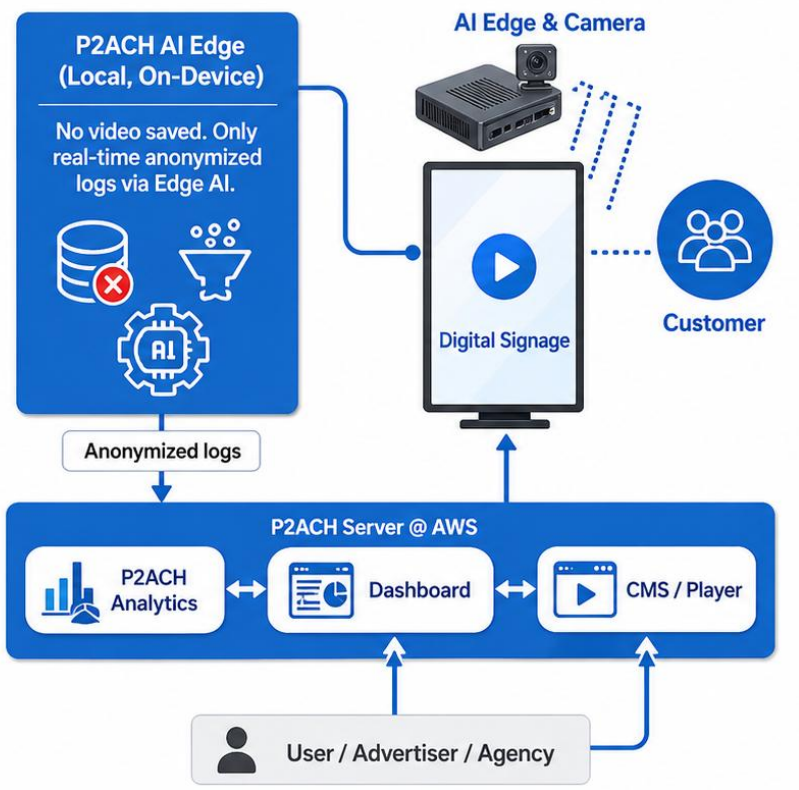

STRATEGY

Building a world-class data-privacy & certification system

Completed GDPR / ISO 27001 / DIPA certifications and the systems to support them

Technical Point

Strategy 2: Going to market via retail-solution / SI partners

LRQA

Certificate of Approval

This is to certify that the Management System of:

P2ACH AI, Corp

8F, 12, Daewangpangyo-ro 645beon-gil, Bundang-gu, Seongnam-si, Gyeonggi 13487, Republic of Korea

has been approved by LRQA to the following standards:

GDPR:2016

Approval number(s): GDPR – 00049647

The scope of this approval is applicable to:

Information Security Management System for provision of Vision AI solution services for customized advertisements by analyzing user characteristics (such as gender, age, and gaze rate) through cameras attached to offline outdoor advertisements. In accordance with the SoA Version 1.0 dated 10 June 2025.

Il-Hyoung Lee

General Manager, Korea

Issued by: LRQA Korea Limited

※ GDPR (General Data Protection Regulation)
A law enacted by the European Union
※ GDPR Certification
Proof that an organization complies with GDPR requirements

MARKET PROBLEM

Expanding to Retail AX: delay transformation, lose more cost & upside to missing data

	Legacy Retail	Limitations	Retail AX
Retail Media	Untargeted mass media	Inefficient targeting lowers ad ROI	Personalized advertising & performance analytics
Inventory Management	Manual restocking after the fact	Poor timely response to stockouts/overstock	Real-time shelf-level detection & instant alerts within <5 min
Store Analytics	Fragmentary receipt/POS data	Incomplete analysis; in-store experience invisible	Re-ID-based visit–browse–purchase e-commerce-style funnel tracking
Security / Loss	After-the-fact CCTV review	Delayed theft detection, ongoing losses	Instant loss-prevention detection (-32% losses)
Response	Reactive handling after issues or events	Lacks flexibility & responsiveness	Fast, autonomous response via a retail-specialized agent

P2ACH AI'S SERVICE

RAX (Retail AX) Key Features

RAX PLATFORM

The 5 services that make up the Retail AX system

RAX (Retail AX) Key Features (Product): Retail Media

Edge-AI-based Retail Media DOOH solution (commercialized)

RAX (Retail AX) Key Features (Product) Retail Media · Bringing what Google Analytics did for online ads into retail advertising

01 Proprietary gaze recognition from autonomous-driving tech

02 Low-complexity homomorphic encryption: ~1% loss, 1000× faster
(from minutes/tens of seconds → under 10 ms)

03 Multi-camera Re-identification with no spatial constraints

04 Only global Android-OS build: OTA, scale-stability & SLA

05 In-house certified cameras / AI BOX: cost-competitive & reliable
(superior cost competitiveness vs. competitors)

Engage / Target

Real-time analysis with Edge-AI

Privacy-by-design · GDPR compliant

On-device · homomorphic encryption

Monetize

Revenue through real-time bidding

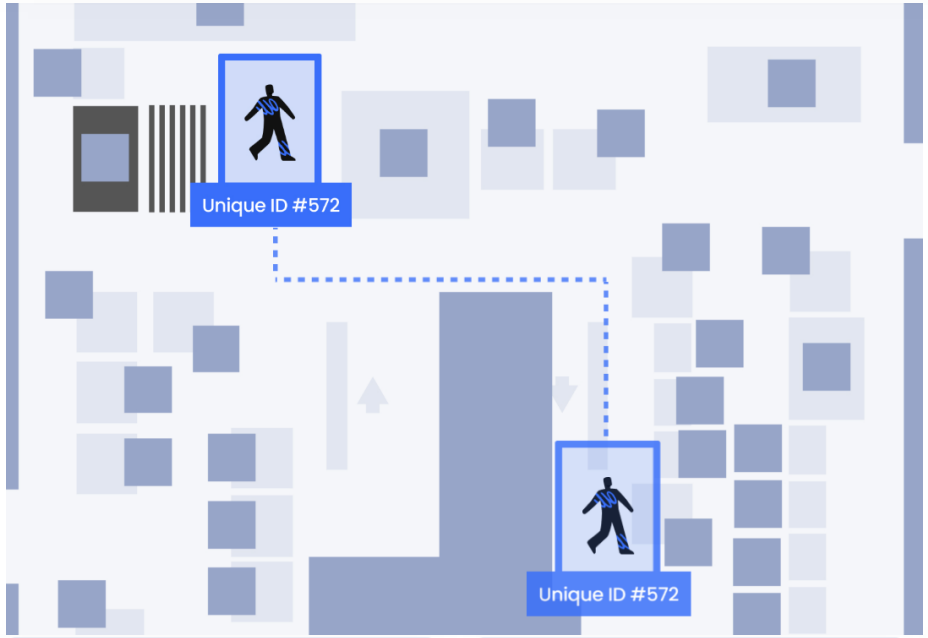

AI targeting boosts conversion & ROI

Triple revenue model (HW + SW + Ads)

RAX (Retail AX) Key Features (Product) : Customer Journey Analysis

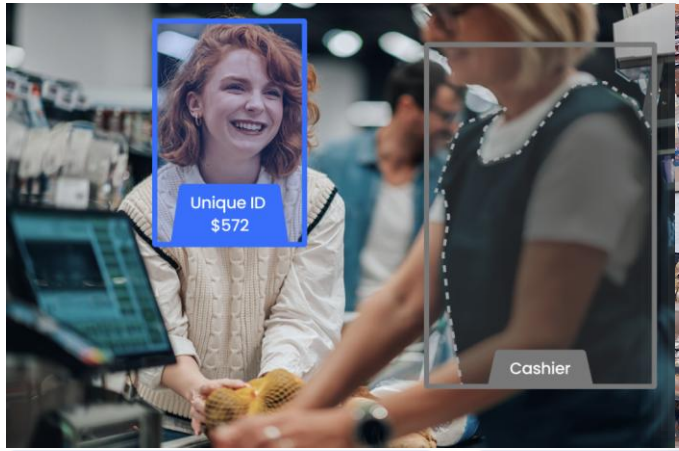

Re-ID delivers world-class in-space customer-journey analysis (commercialized)

Cookie collection through the visit – shop – ad-view – pay customer-analytics cycle

Create Offline cookies

Visit → Shopping → Ad Exposure → Purchase Cycle – Driven Customer Analytics (Cookie-Based Data Collection)

1 Visitor analysis

Age/gender/group analysis, revisit rate

2 Shelf engagement

Gazed product groups, dwell time, interest

3 Traffic-flow analysis

Track in-store movement patterns

4 Ad viewing

View duration & attention analysis

5 Purchase correlation

Measure ad-viewing ↔ purchase linkage

P2ACH AI'S SERVICE

RAX (Retail AX) Key Features (Product): Inventory Analysis

Our Edge VLM enables privacy-safe inventory & out-of-stock detection (commercialized)

Connect up to 100 cameras to a single edge device, delivering workforce efficiency for less than one employee's labor cost

[Inventory analysis & out-of-stock detection every 3 minutes]

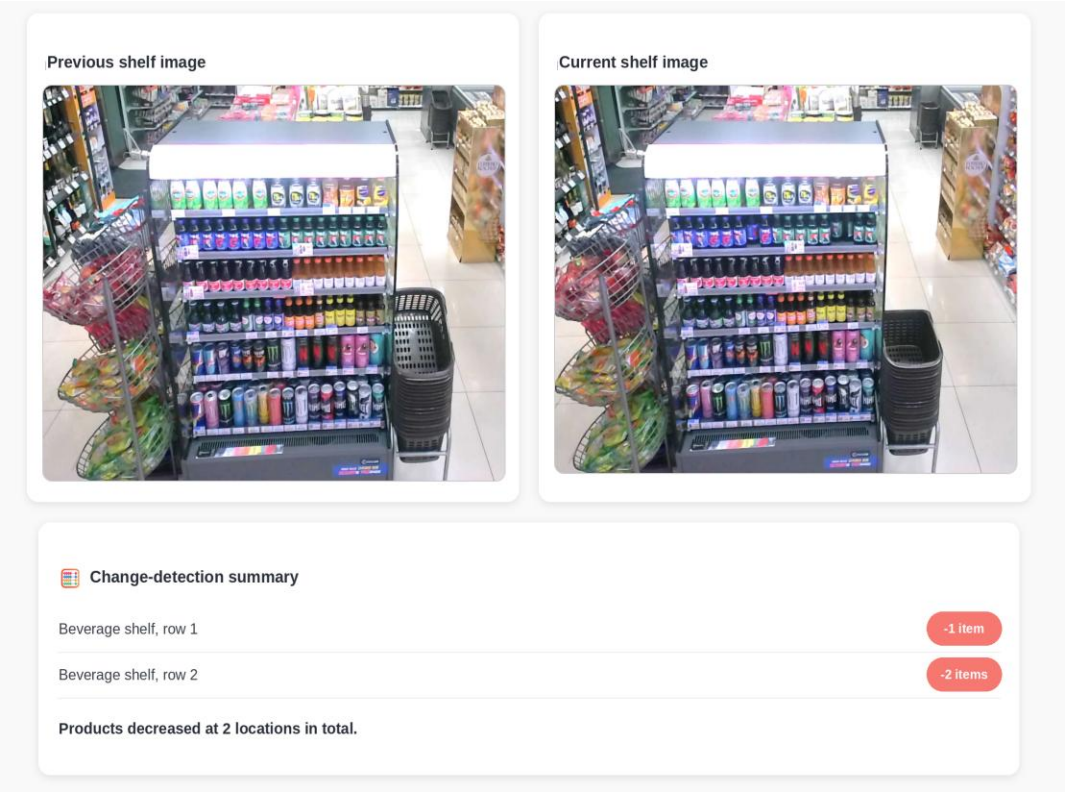

At 2025-05-05 15:12:23

Per-zone metrics

Zone	Product	Status	Stockout freq.
1/2/3	Coca-Cola	Not depleted	0
4/5/6	Gatorade	Partially depleted	1 day
7/8/9	Condition	Out of stock	6 hours

Key insights

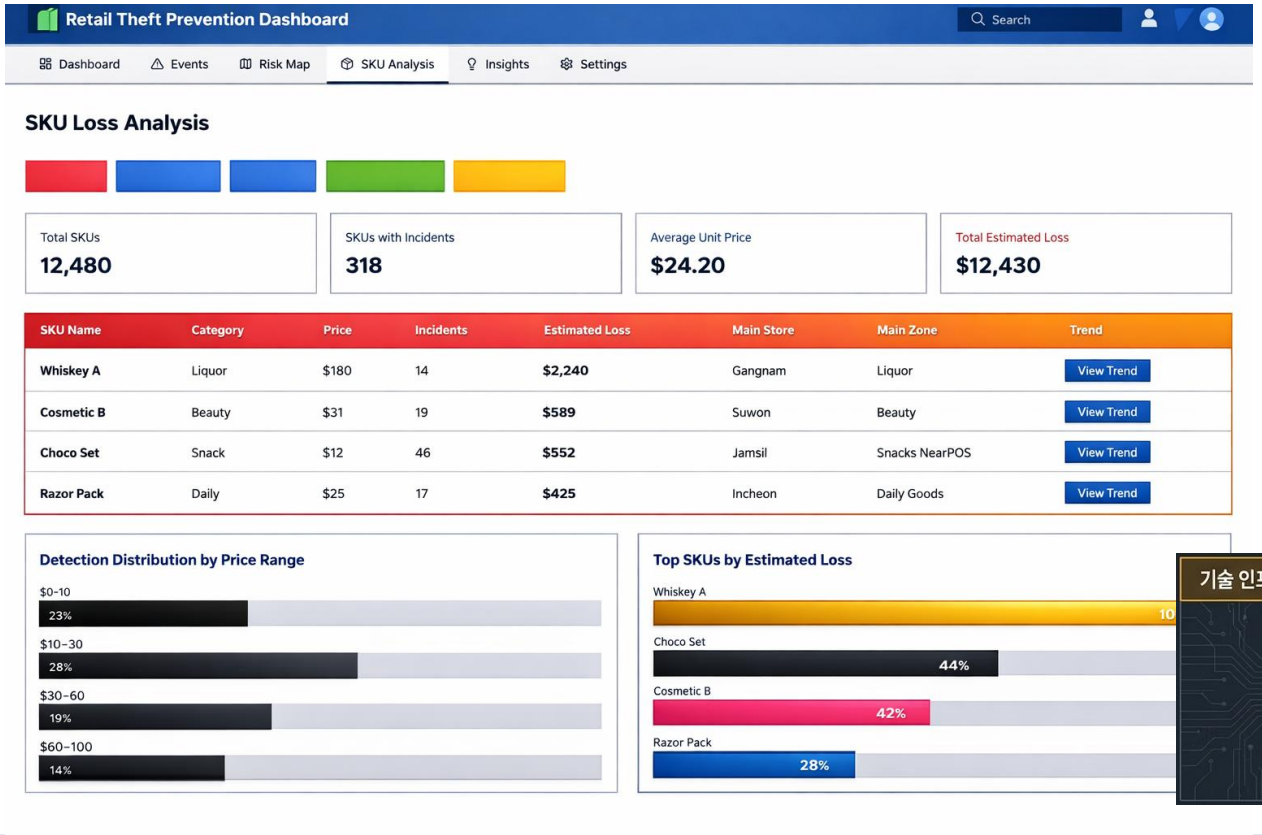

- Out-of-stock alerts with timestamps
- Depletion-frequency monitoring

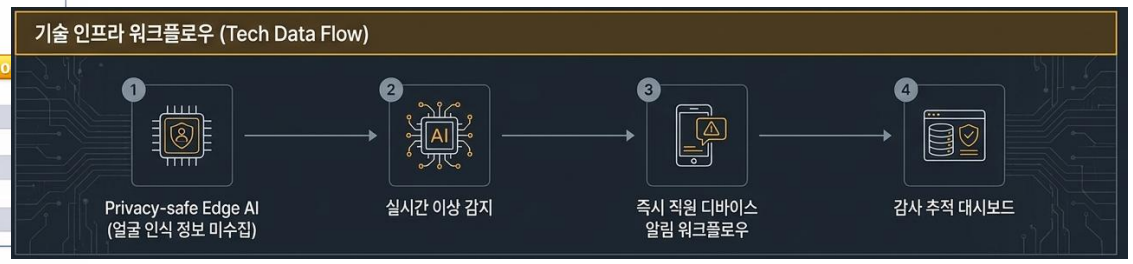

RAX (Retail AX) Key Features (Product) : Inventory Analysis

Our Edge VLM cuts loss costs with real-time theft-risk alerts (demo complete)

Edge-based real-time VLM delivers privacy-safe, real-time theft-risk alerts

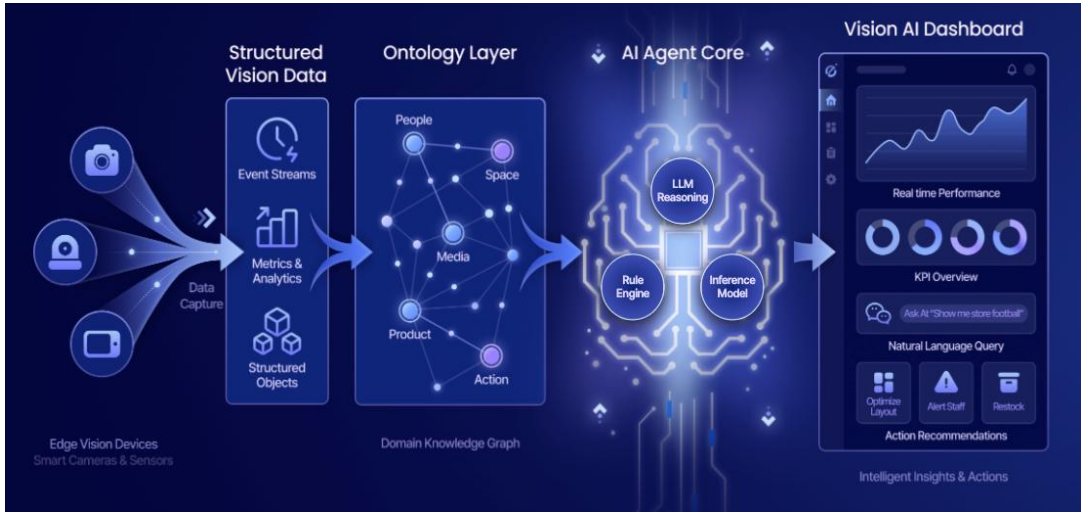

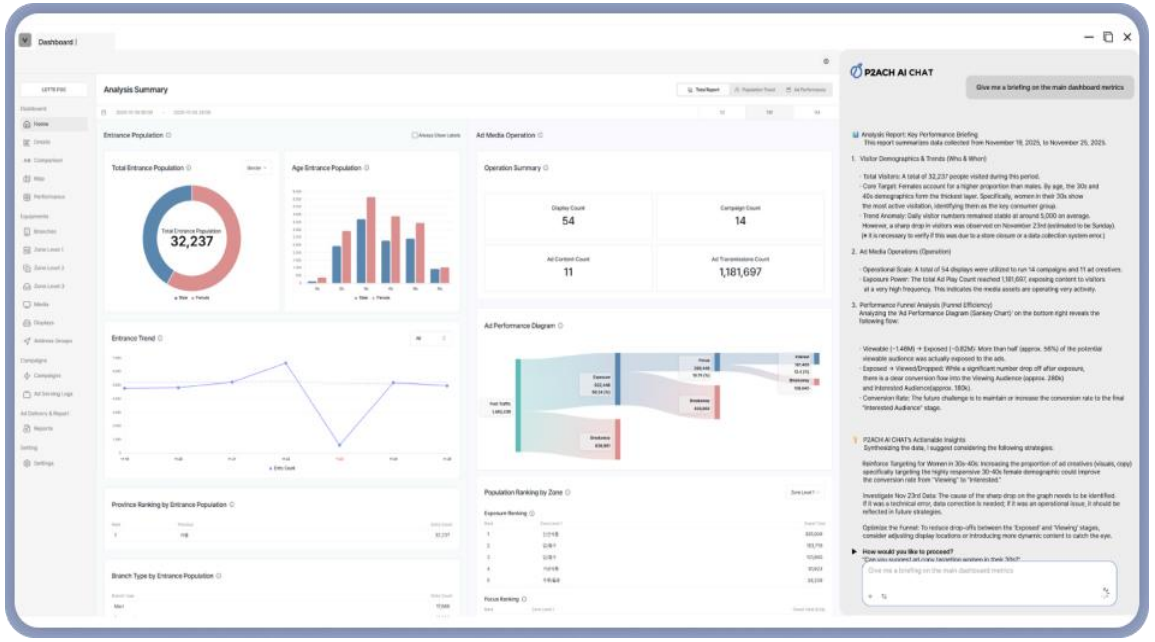

RAX (Retail AX) Key Features (Product)：Retail-Specialized AI Agent

A retail-specialized AI agent supports offline analytics and task automation (commercialized)

Our in-house AI agent delivers these capabilities with no customer-data leakage

Address 5F & 6F, Kangin Bldg., 28 Seolleung-ro 92-gil, Gangnam-gu, Seoul

Website https://p2ach.ai

Key Cases

Case 1 – Quantitatively proving ROI by linking actual ad view-rate to purchase-rate (Japan & Korea)

Advertisers can see performance in hard numbers (3,000+ units to be installed by year-end)

GS 리테일

Korea, Company G

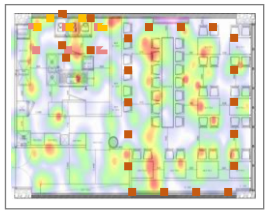

Japan, Company T

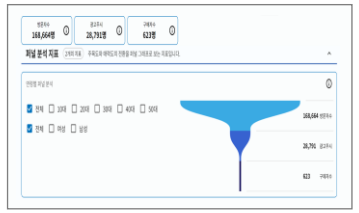

Example: store-visitor segment analysis

Collect customer visit data

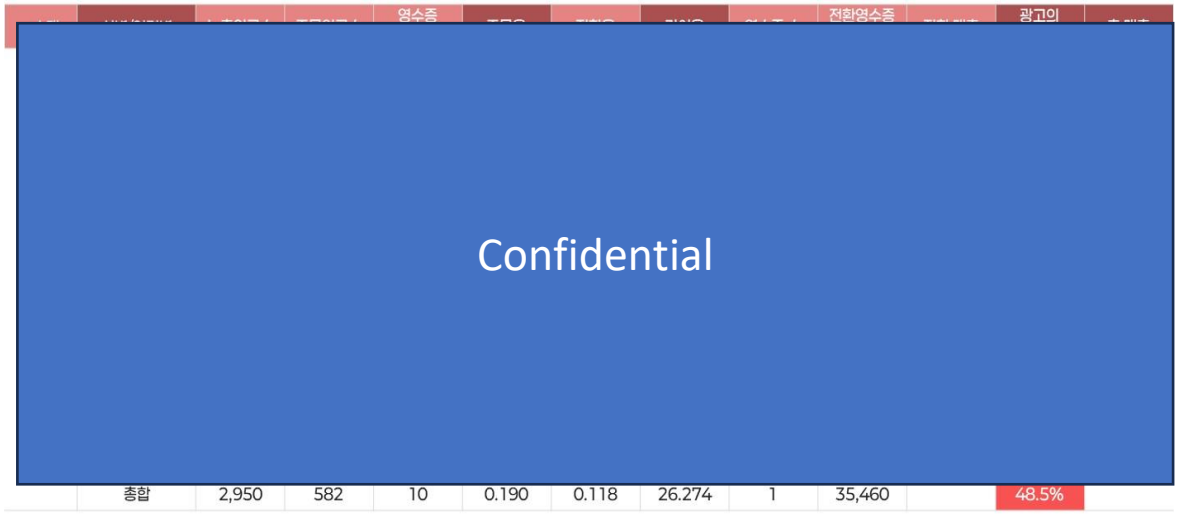

Aggregate customer traffic-flow data

Classify visitor segments

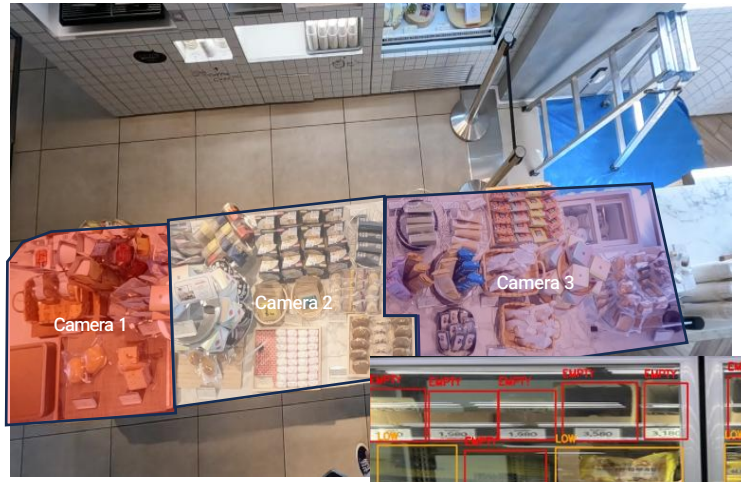

Ad-view-to-receipt persona analysis identifies the key converting buyer segments per product and powers targeted advertising

Key Cases

Case 2 – Inventory-analysis PoC & contract (Europe Company H / Korea Company N)

After securing 57 purchase intents from Japan's Company H, contracts for 2 hotels were finalized

Japan,
Company H

Korea,
Company N

Automates the operations system by linking product inventory status with ESL

Revenue growth from fewer stockouts

By detecting stockouts early and prioritizing restocking, real sales opportunities are recovered and revenue grows

Lower operating & labor costs

The inventory-analysis service cuts the manual checking, searching, and reporting staff once did — a plan to reduce headcount by one was set (Japan Company H)

Improved store-operations efficiency

Beyond simply saving staff time, it standardizes how staff operate in concrete detail (target: Japan Company F, Korea Company N)

Key Cases

Case 3 – NEC Nets I.C. (NEC's SI company; MOU signed, per-project contracts in progress)

Full-scale adoption of AI technology

NEC

NECネッツエスアイ

NEC NEC Networks & System Integration Corporation

Key Cases

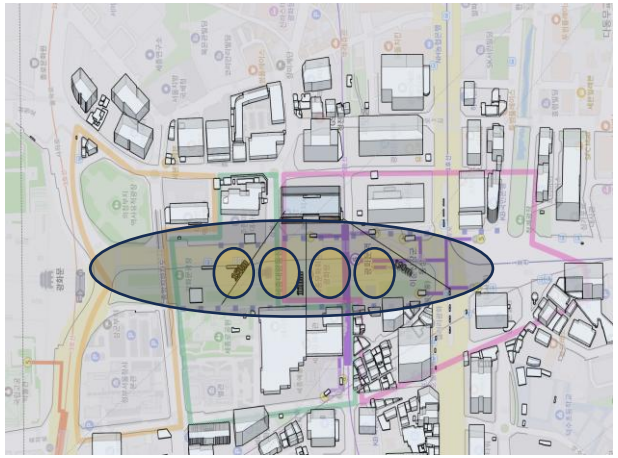

Case 4 – Selected for KT Open Innovation (KRW 80M funding; subscription contract in talks)

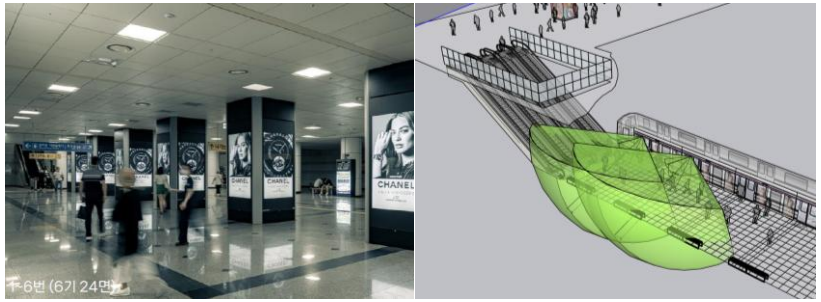

Telecom big data + Vision AI → quantitative ad-effectiveness analysis, with per-target exposure efficiency and viewing-performance metrics

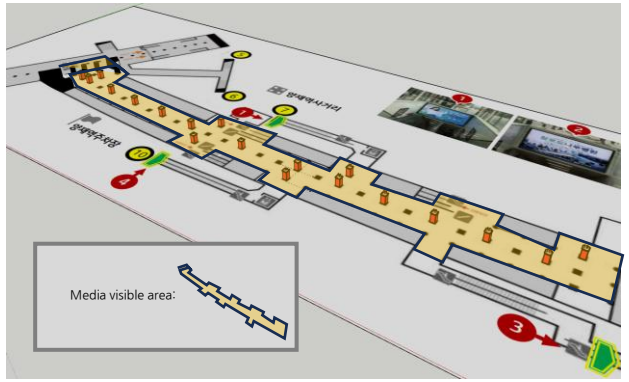

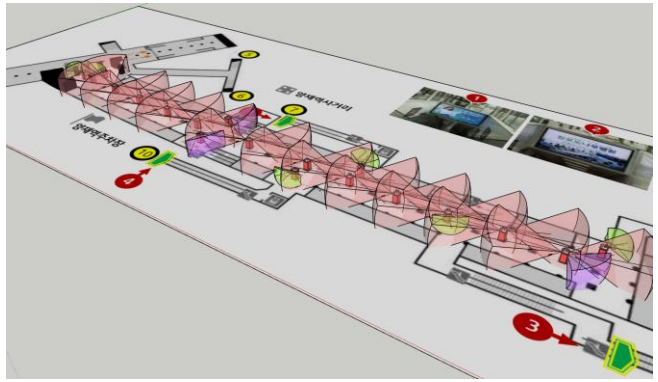

KT스퀘어 (광화문)	규격	일반광고	시보광고	운영시간
	1,770m² (885m² × 2면)	30초/일 70회 (1.2억원)	30초/일 36회 (6천만원)	06:00 ~ 24:00

KT스퀘어 (광화문)	규격	일반광고	시보광고	운영시간
	1,770m² (885m² × 2면)	30초/일 70회 (1.2억원)	30초/일 36회 (6천만원)	06:00 ~ 24:00

Case 5 – Preferred vendor for the ICT Myeongdong Square OOH ad-effectiveness project

"A measurement plan reflecting the characteristics of large signage and street media"
