BestTurn

THE WORLD'S FIRST SPOT-WORK MARKETPLACE FOR AIRPORT GROUND CREW

We turned airport ground labor into an on-demand marketplace.

American and Alaska Airlines already buy from us in Korea.

American Airlines

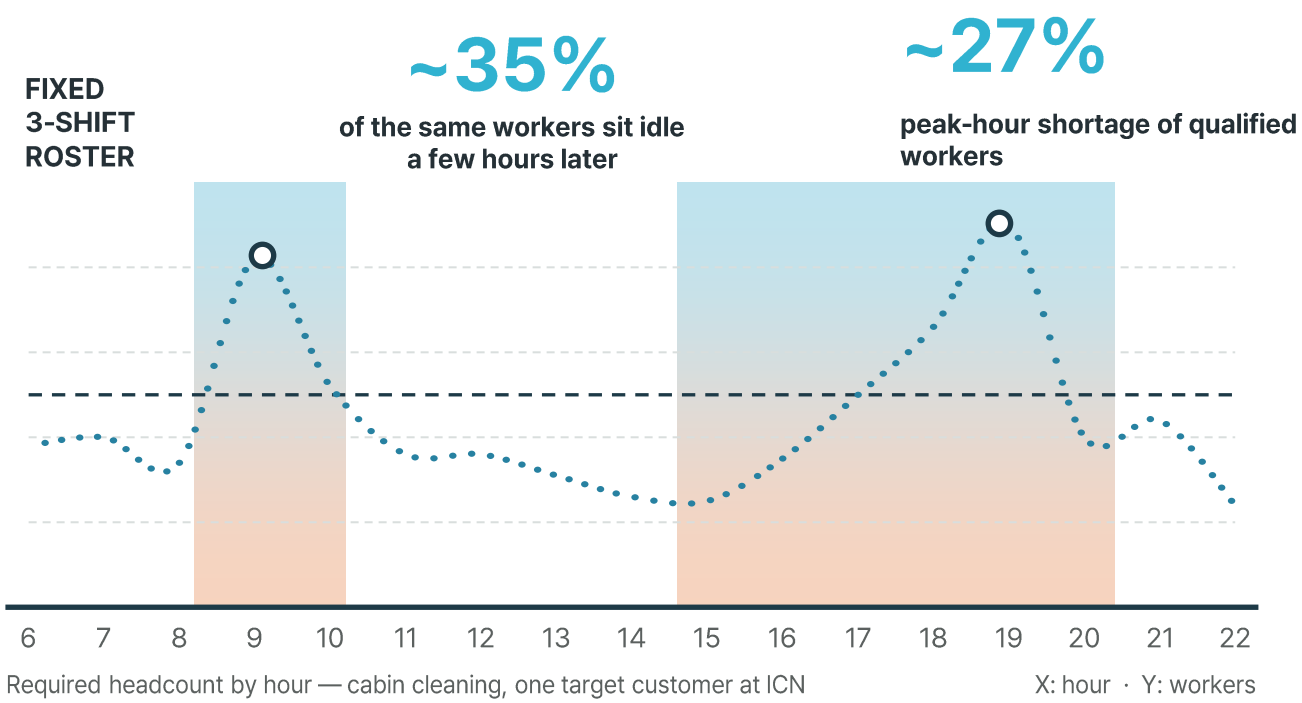

Alaska

Wonjin Choi, Founder & CEO · wonjin@bestturnaround.com

PROBLEM

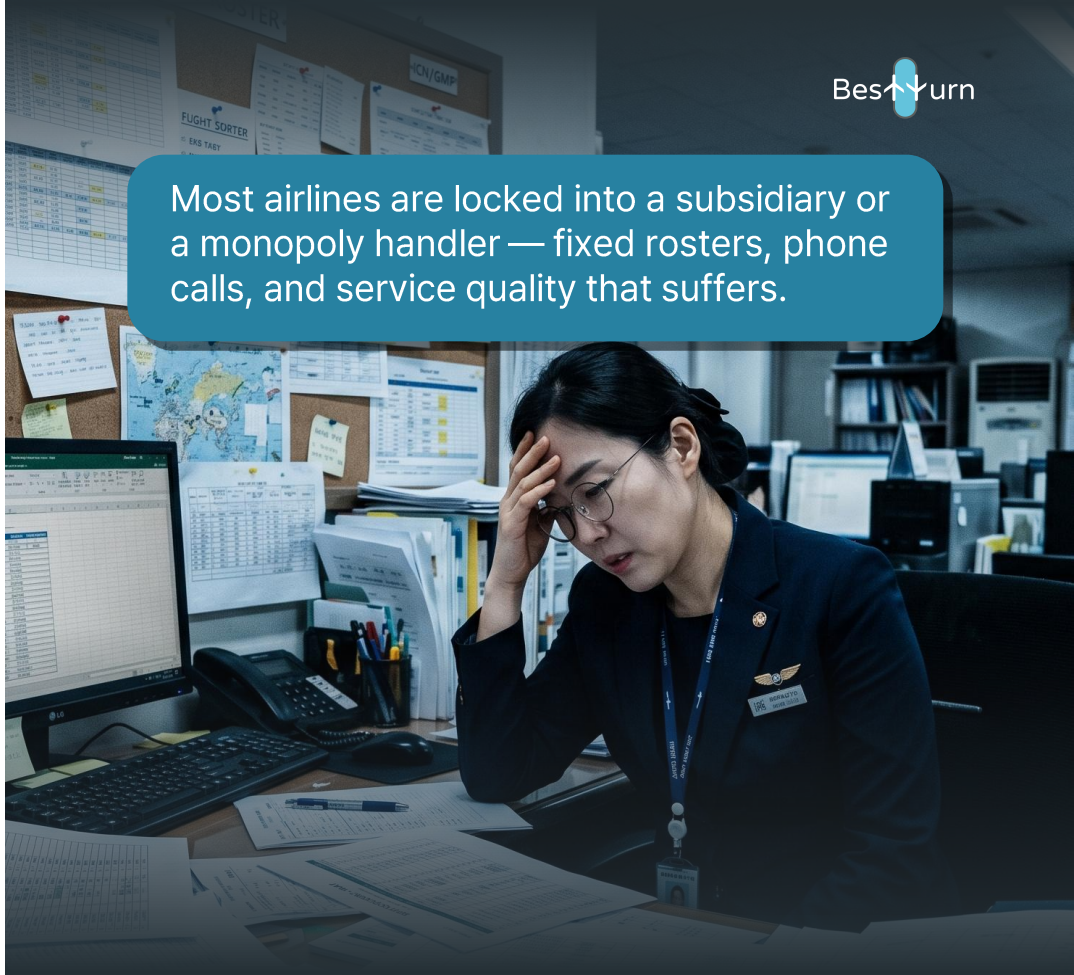

U.S. airports can't staff the peaks and they pay for the valleys

Record traffic, fewer ground workers at every major hub, including the U.S.

Required headcount by hour — cabin cleaning, one target customer at ICN

X: hour · Y: workers

Most airlines are locked into a subsidiary or a monopoly handler — fixed rosters, phone calls, and service quality that suffers.

Workforce software is top-down.
It optimizes the workers you already have.

Nobody supplies the workers you don't have.

SOLUTION

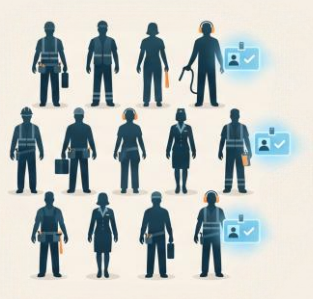

From delay to dispatch in 3 minutes

BestTurn SpotWork - the airport's own workers, security-cleared, matched by AI.

1 · Verified worker pool

14:05

Flight delayed.
Cabin cleaning suddenly needs 2 teams, not 1.

2 · AI matching engine

14:06

Alert pushed to 300+ cleared workers, ranked by AI on six factors: certification, skill, proficiency, preference, fatigue and location.

3 · Dispatch in 3 minutes

14:08

↻ LEARN

Best-fit workers accept.
Operations continue — no delay.

OPERATE Assignment, briefing, time-logging, monitoring all digital.

LEARN Every response becomes training data for reinforcement learning and makes the next match smarter.

The largest ground-handling market, our customer's home

Ground handling runs on
identical IATA standard operating procedures worldwide
the Incheon playbook applies day one.

NORTH AMERICA · GROUND & CARGO HANDLING · 2025

$18B

The largest single market in a
$44B global ground-handling industry

Warm entry - our customers' hubs are our beachhead

American Airlines

ICN customer · chose us for
Flexible staffing
JFK · PHL · DFW · CLT · MIA

Alaska

ICN customer · chose us for
Service quality
SEA · PDX · LAX · ANC

U.S. entry already in motion: UKC2026 the 3rd prize,
NJ Base program first round passed - landing zone next to EWR / JFK.

BUSINESS MODEL

Marketplace today. Software tomorrow. Data forever.

NOW

Marketplace

~30% take rate, live at ICN ≈ $89K monthly revenue · past break-even

Wheelchair service · airline pays $30 / hour

$21 worker	$9 BestTurn

Same price structure exists in U.S. ground handling.
The model transfers as is.

2027

AI SaaS + API

Subscription

Workforce-management SaaS and surge-staffing API for airlines, handlers and airports.
Launching 2027.

GOING FORWARD

Data & Automation

The compounding asset

Largest labeled dataset of airport ground behavior.
The training ground for airport robotics.

TRACTION

Proven at one of the world's hardest airports, Incheon

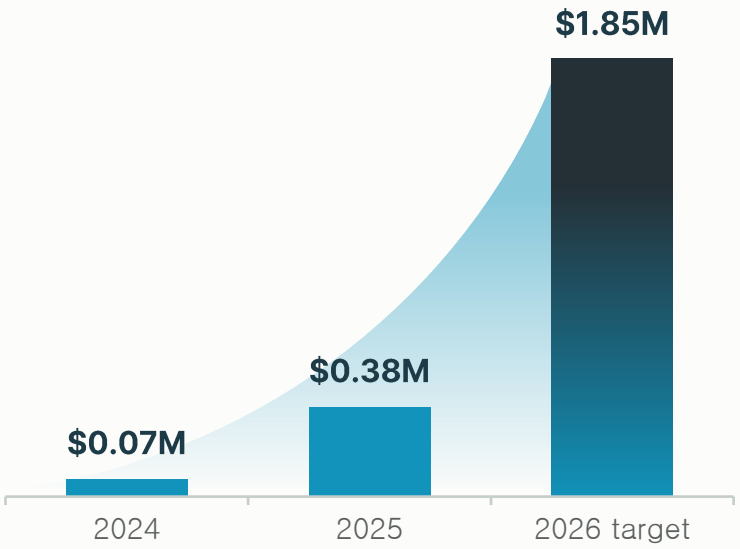

$1.85M
2026 revenue target
(vs $378K in 2025)

8,800+
Live operations
across 14 airlines & handlers

+93.3
Customer NPS,
rated in-app after every job
(70.1% response rate)

-20%
Lower labor cost
– customers pay
only for hours worked, not for idle time

Revenue Growth

Wheelchair & special passengers	American Airlines · Alaska · HAWAIIAN · U.S. CARRIERS · Sharp Aviation K · Lufthansa · Qatar Airways · WestJet · swissport · Singapore Airlines · SWISS
Cleaning	PARATA AIR · MAI Myanmar Airways International · Aero_K · THAI
VIP concierge	**embassies · private-jet clients · celebrities**
Pipeline	$1.1M backlog (2026) · $6.4M contracted pipeline by 2027 avg. contract 2.5 yrs

COMPETITION

Incumbents can't flex. Software can't supply. We do both.

	BestTurn	Legacy handlers (airline subsidiaries)	Aviation WFM SaaS (Springshot, Inform)	Generic gig platforms (Instawork et al.)
On-demand external workforce	Yes, core product	× No	× No	Not airside
Secure-zone credentialing	Digitized & verified	✓ Yes	Partial	× No
AI matching on behavior data	RL on live ops data	Manual, by phone	Top-down scheduling	Basic matching
Aviation compliance (IATA SOP)	Built in + licensed	✓ Yes	✓ Yes	× No

Moat

- **Aircraft-handling license**
- **Security-cleared worker pool**
- **Behavioral dataset from 8,800+ live operations**
- **17-year aviation network**

TEAM

Aviation operators + AI builders

Founder & CEO Wonjin Choi

17 years in global aviation
- Korean Air (Europe HQ), Country Manager at Aeroméxico Korea/Japan, IATA Fast Travel Working Group.

CTO (fractional) James Baek

M.S. in AI, B.S. in CS (Yonsei).
15+ years serial founder - leads the SpotWork AI architecture.

COO (designated) Steve Park

15 years HR in startups & ventures · 10 years international development · founded an AI smart-farm startup.

Head of Platform Younghyun Kim

10 years in UI/UX
LG Innotek – ERP · Strategic planning & performance analysis

Why this team wins in the U.S.

the founder has sold to and operated for U.S. and European carriers for 17 years
— the buyers are already in his network.

ROADMAP

BestTurn

Korea today.

The U.S. tomorrow.

Then airport by airport.

NOW · 2026

H1 2027

H2 2027 →

Korea

Proven at Incheon —
8,800+ live operations,
14 airlines & handlers,
past break-even.

U.S. entry

First station near EWR / JFK
via NJ Base —
with the carriers
who already buy from us.

Scale

Second U.S. station,
then airport by airport —
the way Uber went city by city.

THE ASK

We're raising $1.5M at a $15M valuation to launch at our first U.S. airport.

$1.5M
Raising now (bridge round)

$15M
Valuation

By Q2 2027
First U.S. airport operation

The **world's first** spot-work marketplace for airport labor **already profitable in Korea.**
One airport today. Thousands across America next.

wonjin@bestturnaround.com

We're looking for partners to build it with us.
