Turning Offline Spaces into Data-Driven Business Assets

2025 Sales	2026 confirmed sales	Cumulative installation	Strategy investor
0.72M USD	~2.2M USD	1,000+ units	GS Retail·SoluM

peach ai

How much opportunity value are offline retail stores losing every year?

Problem

The limitation of offline retail: the lack of precise measurement

The lack of precise measurement is a hidden opportunity cost

The problem is not simply that data is missing

Inefficient advertising execution

- Unable to prove ROI
- Advertising budgets remain limited

Customer data limitations

- Limited data-driven decision-making
- Unable to analyze dwell time, customer traffic flow, and purchase behavior together

Shelf operations

- Inefficient out-of-stock and inventory management

Store layout optimization

- Difficulty optimizing store layout based on actual customer behavior

USD 25 trillion market still operates with limited measurement

Opportunity loss from poor measurement : 1~3%

Potential value at risk

USD 700B annually

Compared with online retail, the lack of measurement in offline retail limits budget growth, pricing optimization, operational efficiency, and long-term data accumulation.

Sources: IMARC Group Retail Market Report (2025), Capital One Shopping Retail Statistics (2026), eMarketer / GroupM retail media estimates.

Product

Transform Retail with AI (RAX) : RAX(Retail AX) Platform

Five integrated modules operating on a single infrastructure

Offline Retail Full AX Transform

Five modules operate on the same Edge hardware and data pipeline ,
Cross-sell and Up-sell structure

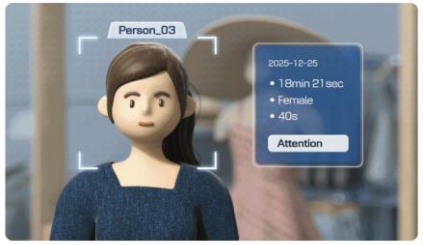

EDGE AI HW + DATA PIPELINE
6 TOPS NPU · 10 FPS · Homomorphic Encryption

RETAIL MEDIA WITH MONETIZATION

RAX-Z

Maximizing
Retail Media Revenue
(Targeting)

OFFLINE CUSTOMER BEHAVIOR RECOGNITION

RAX-Flow

Customer Pattern
in Retail spaces
(Audinece Traffic)

SKU MANAGEMENT EFFICIENCY

RAX-E

ESL - Stock Status By linking
Store operation efficiency
(SKU Management)

OFFLINE RISK/LOSS MINIMIZATION

RAX-LP

Minimize store losses through
VLM-based loss prevention
(AI Loss Prevention)

AUTONOMOUS WORKFLOW SUPPORT

RAX-A

Retail-specialized agent
automation workflows, etc.
(AI Agent)

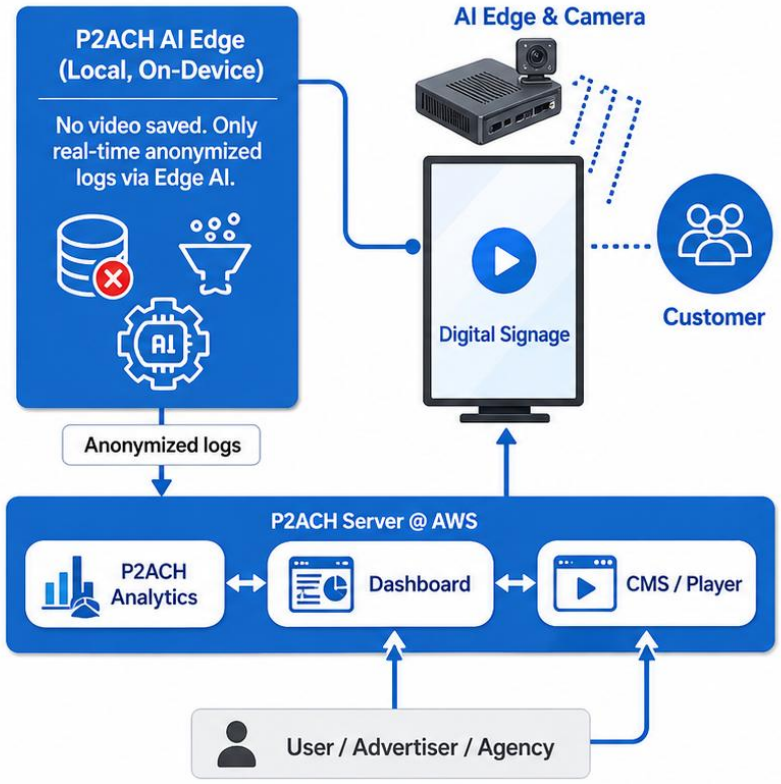

SAFETY

Establishment of a global-level personal information protection certification system

GDPR, ISO/IEC 27001, and DPIA compliant with a globally ready security and privacy framework

Technical Point

Certification

LRQA

Certificate of Approval

This is to certify that the Management System of:

P2ACH AI, Corp

8F, 12, Daewangpangyo-ro 645beon-gil, Bundang-gu, Seongnam-si, Gyeonggi 13487, Republic of Korea

has been approved by LRQA to the following standards:

GDPR:2016

Approval number(s): GDPR – 00049647

The scope of this approval is applicable to:

Information Security Management System for provision of Vision AI solution services for customized advertisements by analyzing user characteristics (such as gender, age, and gaze rate) through cameras attached to offline outdoor advertisements. In accordance with the SoA Version 1.0 dated 10 June 2025.

Il-Hyoung Lee

General Manager, Korea

Issued by: LRQA Korea Limited

※ GDPR (General Data Protection Regulation)
A law enacted by the European Union
※ GDPR Certification
Proof that an organization complies with GDPR requirements

LRQA

※ ISO27001
International standard for Information Security Management Systems (ISMS)

Case Study: Korean retailer / Quantitative ROI validation by linking ad viewership and purchase conversion

Customer pain points

Who actually viewed the advertisement?
What was the purchase conversion rate?
How effective was the advertising campaign?

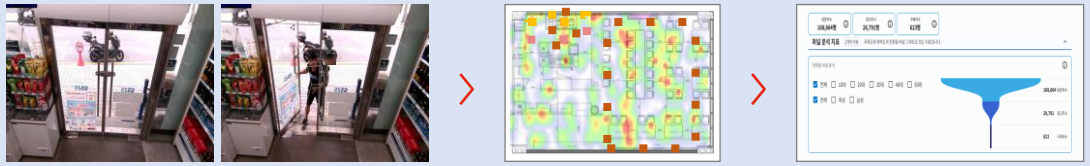

P2ACH AI's Solution

Vision AI store visitor analytics

Vision AI advertising performance analytics

[Store Visitor Classification Method]

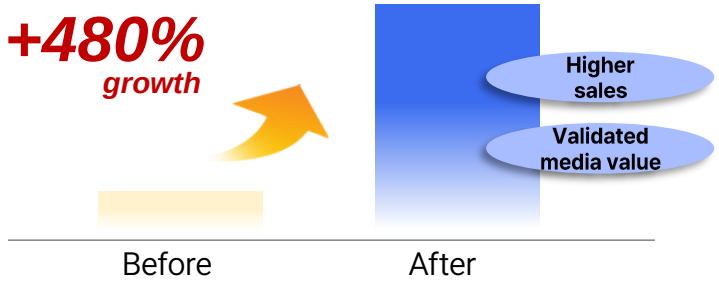

Visitor Data Collection → Visitor Traffic Flow Analysis → Visitor Segmentation

PoC period: 6 months

Results & achievements

Metric	Traditional Method (Control: Fixed Loop)	P2ACH AI Method (Test: Target Ad)	Key Result
Ad Delivery	Random loop played at fixed times	Real-time targeting by age and gender	90%+ Targeting Accuracy
Effective Viewers (VAC)	Estimated total store visitors	Measured viewers looking for N+ seconds	3.2x Effective Impressions
Product Sales (Sales Lift)	Baseline (Previous average sales)	Sales during targeted ad period (+480%)	4.8x Sales Growth

Data-driven advertising effectiveness measurement:
Increased sales of a specific beverage product

Product & Monetization Model

Product Component

Hardware

- Edge Box
- Camera

Software

Solutions | R.AX Platform

- RAX-Z — Retail media monetization
- RAX-Flow — Customer behavior recognition
- RAX-E — SKU management efficiency
- RAX-LP — Risk / loss prevention
- RAX-A — Autonomous workflow support

Data

- Ad Data Service
- Insight Data Service

Traffic · Behavior · SKU · Sales data

Customer Commercial Model

Subscription Model

Zero CapEx, fully as-a-service

- HaaS
- SaaS

Hardware and software are both billed as a monthly subscription

Hybrid Model

Own the hardware, subscribe the software

- H/W Purchase
- SaaS

One-time hardware purchase plus recurring software subscription

P2ACH AI Revenue Model

Hardware Purchase Revenue

One-time device sales (Edge Box + Camera) under the Hybrid model

Subscription Revenue

Recurring monthly / annual HaaS + SaaS fees

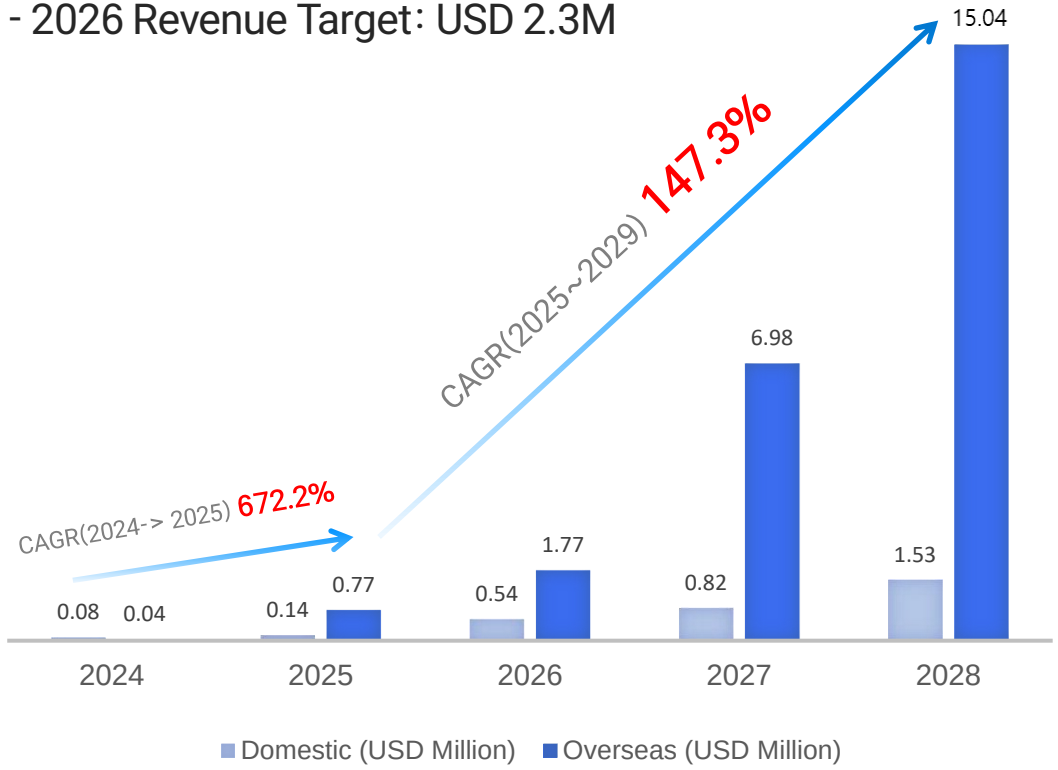

Ad & Data Revenue

Retail media ad revenue share + data feeding / licensing

Revenue and Profit Margin Trends (2025~2029)

x290 Revenue Growth by 2029

- 2025 Revenue Achieved: USD 0.9M
- 2026 Revenue Target: USD 2.3M

2025 Domestic and International Revenue Overview

Nation	Customer	Contract	Amount (about)
Korea	GS Retail	Subscription	USD 22K/year
	GS Netvision	Subscription	USD 26K/year
	L Company PoC	PoC	USD 10K
	P Hotel	Subscription (Expansion discussions)	USD 17K/year
	Media Company	Subscription (Expansion discussions)	USD 83K/year
Japan	S Retail Company	Supply Contract (via partner)	USD 34K
	N Electric Railway	Supply Contract (via partner)	USD 480K
	R Company	Supply Contract (via partner)	USD 28K
	N Compnay	Supply Contract (Partial contract within USD 220K)	USD 22K/year

2026 Key Sales Pipeline Overview

Nation	Customer	Detailed
Korea	Existing Customer	$35K+ secured expansion within Q1
	New Customer	Over $100K contract under active negotiation
Japan	Existing PoC Customer	~$100K pre-commitment under agreement
	New PoC Customer	2 new POCs secured ($50K total)
Vietnam	PoC Under negotiation Customer	Next-gen large-scale in-store media validation program
EU	New Customer	EU retail POC with 1,000+ store operator

U.S. MARKET ENTRY

How Will We Turn U.S. Opportunities into Tangible Business?

We start with a low-cost PoC, prove ROI, and then propose rollout.

Every lead moves through a structured business-conversion path — not one-time networking.

01 LOW-COMMITMENT PoC

0–30 DAYS

- Minimal upfront commitment
- 1–5 stores or locations
- Define customer goals and required data

02 DATA & ROI VALIDATION

30–60 DAYS

- Test how valuable target data can be acquired
- Measure advertising and operational impact
- Estimate labor and cost-saving potential

03 PROPOSAL & EXPANSION PLAN

60–90 DAYS

- Share results and success KPI
- Present rollout roadmap
- Convert into annual HaaS / SaaS plan

04 LONG-TERM BUSINESS CONVERSION

90–180 DAYS

- Multi-store deployment
- Additional module expansion
- Ongoing data / analytics revenue

5+ Qualified meetings

3+ Follow-up opportunities

2+ PoC proposals

1+ Paid PoC / LOI

Investor / partner follow-up: customized proposal → data room → milestone sharing → strategic partnership discussion

GTM

U.S. Target Customers & Go-to-Market Strategy

Advertising + retail-tech efficiency

MULTI-STORE RETAILERS / SPACE OWNERS

- Walmart, Target, shopping malls, H Mart, T&T, convenience chains
- Need ad measurement and operational efficiency
- Strong fit for retail media + retail-tech solutions

SME RETAIL GROUPS / DISPLAY NETWORKS

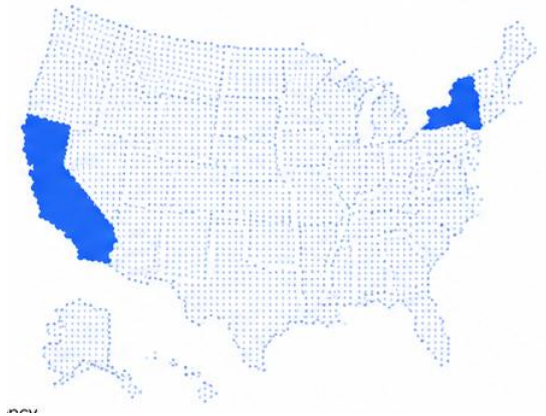

- Merchant groups and federated retail associations
- Can build advertising network power using installed displays
- Need measurable media performance and simple deployment

SMALL & MID-SIZED RETAILERS

- Need store operation efficiency and cost reduction
- Suitable for phased PoC-based adoption
- Value from ad analytics and operational data

GO-TO-MARKET

1. **PoC-Based Market Entry**
   Start with a low-cost PoC and expand with proven business impact
2. **Priority Regions**
   California and New York first
3. **Why These Markets**
   - Most developed offline retail ecosystems
   - High labor costs create strong demand for efficiency
   - Active retail media and ad-tech collaboration environment
   - Clearer discussion and guidance around AI / privacy compliance

PoC
Low-cost pilot with clear success KPIs

→

ROI Validation
Measure impact on ads, operations and ROI

→

Rollout
Scale across stores, regions and partners

Target the right retail segments in the right markets, enter with PoC, prove ROI, and scale efficiently.
